# CONTENTS

## No. 1—February

PAGE

LOWRIE, D. B. How macrophages kill tubercle bacilli . . . . . 1

HALLAS, GILLIAN and WIDDOWSON, JEAN P. The relationship between opacity factor and M protein in *Streptococcus pyogenes* . . . . . 13

COLLINS, P., MATTHEWS, P. R. J., MCDIARMID, A. and BROWN, ANNE. The pathogenicity of *Mycobacterium avium* and related mycobacteria for experimental animals . . . . . 27

BHOGALE, SMITA, R., SHARMA, K. D. and KAMAT, R. S. Role of heat labile antigens of *Shigella flexneri* in HeLa cell invasion. . . . . 37

LARINKARI, ULLA, LEIRISALO, MARJATTA, PENTIKAINEN, P. J., TURUNEN, ULLA, PIKKARAINEN, P., VUORISTO, M., LUMIO, J., RASANEN, TARJA and VALTONEN, V. V. Occurrence of antibodies to teichoic acid in patients with diseases other than staphylococcal infection . . . . . 45

CUMMING, C. G., HAY, A. J., ROSS, P. W. and POXTON, I. R. The isolation and immunochemical characterisation of a cell-wall carbohydrate and a membrane lipocarbohydrate antigen of group B streptococcus, type II. 53

TURTON, L. J., DRUCKER, D. B. and GANGULI, L. A. Effect of glucose concentration in the growth medium upon neutral and acidic fermentation end-products of *Clostridium bifermentans*, *Clostridium sporogenes* and *Peptostreptococcus anaerobius* . . . . . 61

ROBERTS, A. P. and PHILIPS, RUTH. The relative importance of the classical and alternative complement pathways in serum bactericidal activity against *Escherichia coli* . . . . . 69

ALDRIDGE, K. E., SANDERS, C. V., LEWIS, A. C. and MARIER, R. L. Susceptibility of anaerobic bacteria to beta-lactam antibiotics and beta-lactamase production. . . . . 75

TAYLOR, ELIZABETH and PHILLIPS, I. The identification of *Gardnerella vaginalis* 83

SHORT ARTICLES

AGBONLAHOR, D. E., ODUGBEMI, T. O. and DOSUNMU-OGUNBI, O. Isolation of species of *Yersinia* from patients with gastroenteritis in Nigeria . . . 93

WILSON, ELAINE V. and HEARN, VERONICA, M. Use of *Aspergillus fumigatus* mycelial antigens in enzyme-linked immunosorbent assay and counter-immunoelectrophoresis . . . . . 97

BOOKS RECEIVED . . . . . 107

## No. 2—May

HENDRY, R. M., HERZOG, L. W., HERRMAN, J. E. and MEEHAN, R. E. Comparison of enzyme immunoassay with radioimmunoassay for the detection of hepatitis B surface antigen . . . . . 111

CAFFERKEY, MARY T., HONE, ROSEMARY, FALKINER, F. R., KEANE, C. T. and POMEROY, HARRIET. Gentamicin and methicillin resistant *Staphylococcus aureus* in Dublin hospitals: clinical and laboratory studies . . . . . 117

DOWD, G., CAFFERKEY, MARY and DOUGAN, G. Gentamicin and methicillin resistant *Staphylococcus aureus* in Dublin hospitals: molecular studies . 129

DEGENER, J. E., SMIT, A. C. W., MICHEL, M. F., VALKENBURG, H. A. and MULLER, L. Faecal carriage of aerobic gram-negative bacilli and drug resistance of *Escherichia coli* in different age-groups in Dutch urban communities . . . . . 139

PAGE

VERWEIJ-VAN VUGHT, A. M. J. J., VAN DEN BOSCH, J. F., NAMAVAR, F., SPARRIUS, M. and MACLAREN, D. M. K antigens of *Escherichia coli* and virulence in urinary-tract infection: studies in a mouse model . . . . . 147

ABOLARIN, M. O., ORMEROD, W. E. and ROWLES, P. M. Phagocytosis of *Trypanosoma brucei rhodesiense* by peritoneal macrophages: a study by scanning electronmicroscopy . . . . . 157

JØRGENSEN, SIGRID T. Relatedness of chloramphenicol resistance plasmids in epidemiologically unrelated strains of pathogenic *Escherichia coli* from man and animals . . . . . 165

SPROTT, MARY S., INGHAM, H. R., PATTMAN, R. S., EISENSTADT, ROSEMARY L., SHORT, G. R., NARANG, H. K., SISSON, PENELOPE R. and SELKON, J. B. Characteristics of motile curved rods in vaginal secretions . . . . . 175

YOUNG, H., SARAFIAN, S. K., HARRIS, A. B. and MCMILLAN, A. Non-cultural detection of *Neisseria gonorrhoeae* in cervical and vaginal washings . . 183

SENIOR, B. W. and LARSSON, P. A highly discriminatory multi-typing scheme for *Proteus mirabilis* and *Proteus vulgaris* . . . . . 193

BRADE, H. and GALANOS, C. A new lipopolysaccharide antigen identified in *Acinetobacter calcoaceticus*: occurrence of widespread natural antibody 203

SHORT ARTICLES

BRADE, H. and GALANOS, C. Biological activities of the lipopolysaccharide and lipid A from *Acinetobacter calcoaceticus* . . . . . 211

KINSMAN, OONAGH S., MCKENNA, RACHEL and NOBLE, W. C. Associations between histocompatability antigens (HLA) and nasal carriage of *Staphylococcus aureus* . . . . . 215

HILL, M. J., HUDSON, M. J. and STEWART, M. The urinary bacterial flora in patients with three types of urinary tract diversion . . . . . 221

THYAGARAJAN, S. P., PANCHANADAM, M., SUBRAMANIAN, S., SUNDARAVELU, T., AHMED, BASHEER K, and MADANAGOPALAN, N. Duration of hepatitis B surface antigenaemia and its correlation with the histopathological and clinical outcome in acute and chronic hepatitis . . . . . 227

GIUGLIANO, L. G., STRINGER, M. F. and DRASAR, B. S. Detection of *Clostridium perfringens* enterotoxin by tissue culture and double-gel diffusion methods . . . . . 233

PATRICK, SHEILA and REID, J. H. Separation of capsulate and non-capsulate *Bacteroides fragilis* on a discontinuous density gradient . . . . . 239

BOOKS RECEIVED

PROCEEDINGS OF THE PATHOLOGICAL SOCIETY OF GREAT BRITAIN AND IRELAND. i

**No. 3—August**

BRUNIUS, G. and BOLIN, INGRID Interaction between *Yersinia pseudotuberculosis* and the HeLa cell surface . . . . . 245

CRAWFORD, I. and RUSSELL, C. Streptococci isolated from the bloodstream and gingival crevice of man . . . . . 263

BROWN, JACQUELINE M. and POSTON, SUSAN M. Resistance of propionibacteria to antibiotics used in the treatment of acne . . . . . 271

WONG, GRACE H. W., STEINER, B., FAINE, S. and GRAVES, S. Effect of serum concentration and metabolic inhibitors on the attachment of *Treponema pallidum* to rabbit cells . . . . . 281

COPLEY, C. G. and EGGLESTONE, S. I. Auxotyping of *Neisseria gonorrhoeae* isolated in the United Kingdom . . . . . 295

PAGE

CEVENINI, R., DONATI, M., RUMPIANESI, F., MORONI, A., TOSTI, A., PATRIZI, A., VAROTTI, C. and NEGOSANTI, M. Virological course of herpes zoster in otherwise normal hosts . . . . . 303

LAM, C. and MATHISON, G. E. Effect of low intraphagolysosomal *p*H on antimicrobial activity of antibiotics against ingested staphylococci . . 309

SENIOR, B. W. *Proteus morgani* is less frequently associated with urinary tract infections than *Proteus mirabilis*—an explanation . . . . . 317

SENIOR, B. W. The purification, structure and synthesis of proticine 3 . . . 323

RITCHIE, A. E., BRYNER, J. H. and FOLEY, J. W. Role of DNA and bacteriophage in campylobacter auto-agglutination . . . . . 333

SHIBL, A. M. and GEMMELL, C. G. Effect of four antibiotics on haemolysin production and adherence to human uroepithelial cells by *Escherichia coli* . . . . . 341

ELLIOTT, T. S. J. and GREENWOOD, D. The response of *Pseudomonas aeruginosa* to azlocillin, ticarcillin and cefsulodin . . . . . 351

RENNIE, J. S., HUTCHEON, A. W., MACFARLANE, T. W. and MACDONALD, D. G. The role of iron deficiency in experimentally-induced oral candidosis in the rat . . . . . 363

TAVENDALE, ANNE, JARDINE, C. K. H., OLD, D. C. and DUGUID, J. P. Haemagglutinins and adhesion of *Salmonella typhimurium* to HEp2 and HeLa cells . . . . . 371

SHORT ARTICLES

DODD, CHRISTINE E. R. and JONES, DOROTHY. Gain of ornithine decarboxylase activity by a strain of *Shigella flexneri* serotype 6 on the introduction of an R plasmid . . . . . 381

BOOKS RECEIVED . . . . . 386

**No. 4—November**

ROSDAHL, VIBEKE T. and ROSENDAL, KIRSTEN Correlation of penicillinase production with phage type and susceptibility to antibiotics and heavy metals in *Staphylococcus aureus* . . . . . 391

PENKETH, A. R. L., PITT, T. L., HODSON, MARGARET E. and BATTEN, J. C. Bactericidal activity of serum from cystic fibrosis patients for *Pseudomonas aeruginosa* . . . . . 401

TAGG, J. R. and WONG, H. K. Inhibitor production by group-G streptococci of human and of animal origin . . . . . 409

NAGEL, J. and POOT-SCHOLTENS, E. J. Serum IgA antibody to *Bordetella pertussis* as an indicator of infection . . . . . 417

ADEGBOLA, R. A., OLD, D. C. and SENIOR, B. W. The adhesins and fimbriae of *Proteus mirabilis* strains associated with high and low affinity for the urinary tract . . . . . 427

KRAFT, C. A., PLATT, D. J. and TIMBURY, M. C. Distribution and transferability of plasmids in trimethoprim resistant urinary *Escherichia coli* . . . . 433

ASHTON, F. E., RYAN, J. A., DIENA, B. B. and FRASCH, C. E. Immunogenic and protective properties of meningococcal serotype 2a protein in the hen-embryo model . . . . . 443

HANNINGTON, GILLIAN, BOOTH, J. C., WIBLIN, C. N. and STERN, H. Indirect enzyme-linked immunosorbent assay (Elisa) for detection of IgG antibodies against Coxsackie B viruses . . . . . 459

PAGE

TUYAU, J. E. and SIMS, W. Aspects of the pathogenicity of some oral and other haemophili. . . . . 467

JOHNSON, A. P., CLARK, J. B. and OSBORN, M. F. Scanning electron microscopy of the interaction between *Haemophilus influenzae* and organ cultures of rat trachea . . . . . 477

MAGEE, J. T., HINDMARCH, J. M. and MEECHAN, D. F. Identification of staphylococci by pyrolysis gas-liquid chromatography . . . . . 483

SHORT ARTICLES

SHANSON, D. C., AKASH, S. and HARRIS, M. Clinical comparison of glucose broth with nutrient broth blood cultures for the detection of "*Streptococcus viridans*" bacteraemia . . . . . 497

HELLGREN, L. and VINCENT, J. The incidence of tinea versicolor in central Sweden . . . . . 501

BOOKS RECEIVED . . . . . 503

INDEX SUBJECTS . . . . . 505

INDEX AUTHORS . . . . . 509

PROCEEDINGS OF THE PATHOLOGICAL SOCIETY OF GREAT BRITAIN AND IRELAND. p. i
